## Product introduction

Thank you for purchasing our product. Before carrying out any operations with the product, carefully read this instruction manual and keep it with you for future reference. It contains important information about the installation, usage and maintenance of the unit. Please strictly follow it.

## Safety Instructions

WARNING: Do not look at the light source when the device is on.

CAUTION: This housing may be hot during and after operation.
-To reduce the risk of electric shock, do not open the device.
-Install this device in a location with adequate ventilation, at least 20 inch ( 50 cm ) from adjacent surfaces.
-Do not leave any flammable material within 20 inch ( 50 cm ) of this device while operating or connecting to power.
-Do not cover any ventilation openings as this may result in overheating.
-Keep the unit away from children.
-The electric connection should be carried out by a qualified person only.
-Make sure that the available voltage is not higher than the one stated in this manual.
-The power cord should always be in perfect condition. Switch the device immediately off when the power cord is squashed or damaged. It must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
-Do not connect this device to any dimmer pack.

- ONLY connect this device to a grounded and protected circuit.
-The maximum ambient temperature is $104^{\circ} \mathrm{F}\left(40^{\circ} \mathrm{C}\right)$. Do not operate this device at higher temperatures.
-Always disconnect from the mains when installing, maintaining or cleaning the unit.
Before operate this unit, please carefully read this users guide and keep if
needed in future. It's necessary to respect following rules.

## Overhead Rigging

The installation of the device has to be done in such a way that it can hold 10 times the weight for 1 hour without any deformation.

The operator has to make sure that all safety-related and machinetechnical installations are approved by an expert ,before taking the unit in operation for the first time.

Please note: for overhead rigging in public or industrial areas, a series of safety instructions as double safety have to be followed.

## Electrical Operation

IMPORTANT: The electrical installation should be carried by qualified person only.
Please note the wire color code while connecting the $2 x$ mains cable:

- G: green/yellow color = Ground earth connection
- N : blue color = Neutral
- L: brown color = Live

This device must be earthed to comply with regulations!
This device can NOT be dimmed, do not connect on a dimmer pack!

## Maintenance and Cleaning

The following points have to be considered during the inspection:

* All screws and parts of the device have to be tight and may not be corroded.
* There may not be any deformations on the housing, color lenses, fixations and installation spots (ceiling, suspension, trussing).
* The electric power supply cables must not show any damage, material fatigue or sediments.

In order to maintain the device in good condition and extend the life time, we recommend to clean the device frequently.

The cleaning of heat sink and external optical lenses must be carried out periodically to optimize light output. The frequency of cleaning depends on the environment in which the fixture operates.

A detailed electric check by certified electrician each three month,
make sure that the circuit contacts are in good condition, to prevent the circuit from overheating due to poor contact.

Clean with a soft cloth using glass cleaning products. Never use alcohol or solvents.

Always dry the parts carefully.

## Technical Specifications

## Dimensions drawing

## Physical

Dimensions (WxHxD): 49,7 $\times 41,6 \times 63 \mathrm{~cm} \mid 19,6 \times 16,4 \times 2,5 \mathrm{in}$
Packaging dimensions (WxHxD): $54 \times 42 \times 11,5 \mathrm{~cm} \mid 21,3 \times 16,5 \times 4,5 \mathrm{in}$
4 pcs packing dimensions (WxHxD): $560 \times 520 \times 440 \mathrm{~mm}-22.0 \times 20.5 \times 17.3$ in Net weight: $6,4 \mathrm{~kg} \mid 14,1 \mathrm{lbs}$ Gross weight: $7.2 \mathrm{~kg} \mid 15,9 \mathrm{lbs}$
4pcs packing gross weight: $29.9 \mathrm{~kg}-65,9 \mathrm{lbs}$

## Mounting options

Hanging: Dedicated hanging bracket with M12 mounting hole
Standing: n/a
$2^{\text {nd }}$ suspension / safety wire: 1 x sleeve in bracket of the unit to pass carabiner

## Control

Control: on/off by power
Tilt Movement: One hand tilt locking

## Optical

Lamp type: LED Fresnel
Beam angle: $60^{\circ}$
Colours: 4.800K
Refresh rate: Flicker free
CRI: 95 Ra
Photometric data B Flooddl60 ${ }^{\circ}$
Light angle: $60^{\circ}$ Plano convex lens
Light output
Lux @ 2m: 4.719 lux
Lux @ 5m: 755 lux
Lux @ 10m: 189 lux

## Electrical

Fixture rated power: 220W
Power factor: 0.98
LED engine: 320 x 1W SMD LED
Input power: $100-240 \mathrm{~V} \sim 50 / 60 \mathrm{~Hz} \mid$ Auto switching power supply
In/Link: 1,5m cable bare ends (choose your plug) | max link current: 10A
IP rating IP66
Cooling Conventional, no fans

## Accessories

1x Powercable with bare ends
